Anti-lost backpack User Manual

Thank you for choosing the smart anti-lost backpack based on Bluetooth. Digitalshield is a kind of Bluetooth Low-energy product which based on the newest Bluetooth 4.0 version. It can chain user's easy-lost & valuable bags (such as backpack, handbags etc.), together with smart phones through specified App software within a setting Bluetooth connection distance. In the effective distance it can realize the functions of anti-lost, looking for smart phones, self-portrait and voice recording.

The effective distance of Digitalshield is 75 Feet in open range without barrier. With this device, your backpacks won't leave your attentions any more.

Digitalshield use CR2032 Lithium Coin Battery which is easy to get from markets, and it works for almost half a year.

. 1 .
